

STODDART STEEL FRAMING

It's what's on the

inside

that counts.

WHY MORE BUILDERS PARTNER WITH STODDART GROUP

When it comes to steel framing, Stoddart Group is the builder's choice. Why?

It's not just the 30,000 steel frames we've supplied over many decades.

It's so many things. The top quality, Australian-made TRUECORE® steel that's backed by a warranty of up to 50-years by BlueScope Steel. The compatibility with conventional building products and techniques and seamless integration with our extensive suite of products. The superior spanning for design freedom and flexibility. And the option of end-to-end support, from design through to installation, with the backing of full technical assistance.

It's also about the value to your customers: a frame that's 100% termite-proof, pesticide-free and builds straight and true – reducing maintenance and structural issues.

The whole picture adds up to an industry partner that's proven and reliable.

START TO FINISH

We're here with everything you need, offering:

- A collaborative design process that ensures you have input and information.
- Conversion from timber frame design to the ideal steel frame system.
- Quality assured, manufacturing in state-of-the-art facilities.
- A swift response to any on-site queries.
- Optional installation by qualified and experienced installers. Includes dedicated supervision, comprehensive WH&S standards, a complete Q&A check, and on-site training if required.

ALL THE INCLUSIONS

We take responsibility for the structural design and certification.

On your behalf, our service offer includes:

- Peace of mind with a 50-year BlueScope Steel warranty.
- Structural sub floor systems including posts.
- Integrated web floor systems for multi-level residences.
- Independent Certification of Design (Form 15 QLD).
- Certified Inspection of Installation (Form 16 QLD).

QUICK SUPPLY AND INSTALL

We work to suit your needs and make life easier by:

- Prefabricating your customised steel frame and delivering it to suit your schedule.
- Fully supervised installation option, on-site training if you need extra help.
- Supplying other structural steel such as posts and beams: we're your single steel supplier.

We can supply all of the structural steel members required for the building design.

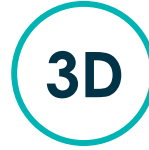

TECHNICAL BACKUP, WHEN YOU NEED IT

We've got your back, whether you need direct assistance, or to help other on-site trades interact with steel framing. This includes:

- Knowledgeable and helpful staff to provide assistance whenever you need it.
- Trade interaction guides and data sheets.
- On-site supervision and quality inspection.

DESIGNED WITH INTEGRATED 3D SOFTWARE

We work smarter, using 3D software to design your frame from plans, offering:

- Access to 3D modelling to understand how the frame interacts with other building elements and trades.
- Better trade coordination and constructability by highlighting potential issues upfront before they become on-site surprises.

Stoddart Group is one of Australia's leading suppliers and installers of products to the residential construction industry. We work closely with our builder partners to deliver a better way to build.

THE STODDART DIFFERENCE

SAFETY

Safety in the workplace is central to our business beliefs and we believe all workers deserve to go home safe and sound. Our risk management system covers activities to facilitate a safer environment and we provide training for our staff to identify and maintain safe workplaces and habits.

ESTIMATING

Our quotes are fast, clear and all-inclusive thanks to our tried and tested quoting methods. Plus we can work with your teams to optimise plans for our products to help you save money and time on site.

PROJECT MANAGEMENT

Our local teams work with builders to ensure smooth delivery and installation ensuring we're providing you with the right products, exactly when you need them. We check in to confirm your site is ready for delivery and resolve any last minute issues; then we despatch products quickly and efficiently.

INSTALLATION

With well-established training programs and strict procedures, our experienced staff and skilled contractors get the job done safely and efficiently. You'll have peace of mind knowing our dedicated site supervisor oversees installation and completes regular inspections before, during and after installation.

SERVICE

Our support doesn't end when our tools go down. We check in regularly until your project is finished to ensure you have everything you need and we back our work with extensive product warranties and our seven-year installation policy. We have the tools to avoid mistakes and the resources to fix them if they happen.

STODDART STABILITY

Our customers rest assured knowing that Stoddart Group has stood the test of time. We've stood by our work for the last six decades. We have five product divisions, locations across five states, a team of 600+ staff, 2,500+ contractors and work on 30,000+ homes each year.
